

ECONWARD, is dedicated to the design, **DEVELOPMENT, AND COMMERCIALIZATION OF PATENTED TECHNOLOGIES THAT TRANSFORM THE ORGANIC FRACTION OF URBAN SOLID WASTE INTO BIOMASS**. This sustainable solution is designed to replace or complement traditional waste management systems. With operations based in Madrid and Rivas-Vaciamadrid, ECONWARD is committed to delivering high-quality services that meet the expectations of its customers and stakeholders.

Recognizing its legal and social responsibilities regarding Occupational Health and Safety (OHS), environmental protection, and service quality, the management of ECONWARD is committed to the following principles:

-  **Customer Satisfaction:** Align all activities with the goal of exceeding customer needs and expectations by providing exceptional quality services.
-  **Compliance:** Adhere to all applicable legal, regulatory, and client-specific requirements related to environmental protection, OHS, quality, and relevant ISO standards (ISO 9001, ISO 14001, ISO 45001).
-  **Staff Development and Engagement:** Foster staff competence and engagement by encouraging active participation, providing training on occupational risk prevention, and raising awareness about environmental stewardship.
-  **Safe and Healthy Work Conditions:** Ensure safe and healthy working conditions to prevent workplace injuries and health issues, promote worker consultation and participation in OHS-related decisions, and integrate gender equality and inclusivity in all practices.
-  **Hazard and Risk Management:** Proactively eliminate hazards and minimize risks to worker health and safety.
-  **Continuous Improvement:** Optimize processes and continuously improve the integrated management system for quality, environment, and occupational health and safety.
-  **Environmental Protection:** Protect the environment by using natural resources sustainably, minimizing greenhouse gas emissions, reducing environmental impacts, preventing pollution, and applying Multi-R (reduce, reuse, recycle, recover) criteria.
-  **Support for Sustainable Development Goals (SDGs):** Actively contribute to achieving the SDGs through its operations.
-  **Engagement with Suppliers and Contractors:** Promote the same principles of safety, health, and environmental responsibility among suppliers and contractors.

This policy serves as the foundation for setting objectives and is reviewed periodically to ensure its relevance and effectiveness.
